

Do You Have the Coverage You Need?

Calling all innovators! As technology advances to make your practice more cutting-edge, traditional malpractice insurers aren't always as up to date as you are.

Many providers just like you in the space of aesthetic and cosmetic procedures already carry traditional malpractice insurance. But what happens when a procedure isn't covered? You don't want to be caught unaware.

Are there procedures you want to provide your clients that aren't covered by traditional insurers? What if there was an insurance plan that you knew would cover the latest and greatest technological advancements, and would protect you with full coverage as you update your suite of services?

At Medi Coverage, we help practitioners like you get the coverage they need for every procedure they perform. Endorsed by the Cellular Medicine Association, we're proud to extend its members access to a custom-built plan.

As a member, you have special access to Medi Coverage's plans-tailored to the procedures you perform today, so you can keep innovating to bring your clients and patients the best experience tomorrow.

Get the coverage you need that traditional malpractice insurers don't offer, so your practice is in good hands, just like your patients are.
